The website has been updated: you can now conveniently download materials both as individual PDFs and as complete section ZIP archives along with the original author files.

Announcement: Upcoming Article «Domain of Capital»

The next publication on the site will be the article «Domain of Capital».

It will explore:

- The periphery in its modern understanding;
- So-called “ideal gold” and how it differs from real gold;
- Oil, petrodollars, “black gold,” and related mechanisms;
- How all of this relates to capital and anticapital.
